

Contactless voltage detector

PAN MAGNETFINDER

EN Kontaktloser Magnetfeldprüfer

- **A blue LED in the tip and a beep indicate the presence of a magnetic field.**
- For permanent magnets and electromagnets for DC and AC.
- To check the switching status of electromagnets, electric motors, solenoid valves (eg in heating circuit), relays, contactors, conventional transformers, etc. (only displayed when switched on).
- **LED flashlight**
- Fully insulated, no metallic contact
- Dimensions 177 x Ø 20 mm
- Lieferumfang: Magnetic lid for self-testing, Battery 2x AAA, Operating manual

PAN MAGNETFINDER

Weight (gross / net)
